About me

I am an outgoing and curious person who loves to learn. Ever since I was young, I have had a great interest in everything related to computers and technology. When I am not studying, I enjoy playing video games, or tennis with friends if the weather is nice.

Education

08.2021–06.2024	Computer Technology – University of Bergen - UiB
08.2018–06.2021	Natural sciences – Trondheim Cathedral School With a focus on natural sciences

Work experience

09.2023	Software Developer , Sportrad AS Worked part-time with the same project from my summer internship
06.2023–08.2023	Engineering Intern , Sportrad AS Worked as a full-stack developer for Sportrad. I was involved in developing an internal tool using Quarkus and Kotlin for the backend, as well as React and TypeScript for the frontend.

Volunteer Experience

09.2021–06.2024	echo Webkom I have been involved in managing echo's web solutions. Through my role, I have held positions as a board member, deputy chairman, and now I am the chief technology officer. I also spearheaded the development of the new website. Here, we have used many modern technologies such as TailwindCSS, Next.js, Vercel, Kotlin, Ktor to name a few.
