About me

I am an outgoing and curious person who loves to learn. Ever since I was young, I have had a great interest in everything related to computers and technology. When I am not studying, I enjoy playing video games, or tennis with friends if the weather is nice.

Education

08.2024 - 2026 **Master's degree in Software Engineering**
University of Bergen

08.2021 - 06.2024 **Bachelor in Computer Technology**
University of Bergen

08.2018 - 06.2021 **High school**
Trondheim Cathedral School

Work experience

06.2025 - 08.2025 **Software Developer Intern**
Bekk
Worked as a full-stack developer intern at Bekk. Worked on an ordering system for a genetic laboratory, using Django, React and PostgreSQL.

09.2023 - 06.2025 **Software Developer**
Sportradar AS
Worked part-time with the same project from my summer internship.

06.2023 - 08.2023 **Engineering Intern**
Sportradar AS
Worked as a full-stack developer for Sportradar. I was involved in developing an internal tool using Quarkus and Kotlin for the backend, as well as React and TypeScript for the frontend.

Volunteer experience

04.2025 - 04.2026 **Board member**
echo - Linjeforeningen for informatikk
Was a board member of echo's main board.

09.2021 - Present **Board member / CTO**
echo Webkom
I have been involved in managing echo's web solutions. Through my role, I have held positions as a board member, deputy chairman, and now I am the chief technology officer. I also spearheaded the development of the new website. Here, we have used many modern technologies such as TailwindCSS, Next.js, Vercel, Kotlin, and Ktor to name a few.

Skills

Programming languages — TypeScript, JavaScript, SQL, Go, Kotlin, Java, Python

Frameworks — React, React Router, Next.js, Svelte, Quarkus, Ktor, Hono

Tools — Git, Docker

Other — SQLite, PostgreSQL, Redis, TailwindCSS, Cloudflare, Vercel, GitHub Actions

Other

See some of my other projects on my GitHub, omfj.

I also have some certificates on Codecademy.
