About me

I am an outgoing and curious person who loves to learn. Ever since I was young, I have had a great interest in everything related to computers and technology. When I am not studying, I enjoy playing video games, watching football, or playing tennis with friends if the weather is nice.

Education

08.2024 - 2026 **Master's degree in Software Engineering**
University of Bergen

08.2021 - 06.2024 **Bachelor in Computer Technology**
University of Bergen

08.2018 - 06.2021 **High school**
Trondheim Cathedral School

Work experience

09.2023 - Present **Software Developer**
Sportradar AS
Continued development and maintenance of the internal tool from the summer internship.

06.2025 - 08.2025 **Software Developer Intern**
Bekk
Developed an ordering system for a genetic laboratory using Django, React, and PostgreSQL.

06.2023 - 08.2023 **Engineering Intern**
Sportradar AS
Developed an internal tool using Quarkus and Kotlin for the backend, and React and TypeScript for the frontend.

Skills

Programming languages	TypeScript, JavaScript, Rust, Go, Kotlin, Java, Python
Frameworks	React, React Router, Next.js, Svelte, Quarkus, Ktor, Hono, TailwindCSS
Databases	SQL, PostgreSQL, SQLite, Redis
DevOps & Cloud	Git, Docker, GitHub Actions, Cloudflare, Vercel

Volunteer experience

Board member, *echo — Linjeforeningen*
04.2025 - 04.2026
Was a board member of echo's main board.
